

UP UP *n* AWAY!

Come on TAKE a FREE RIDE!

a key underpin to the business model:

- Is the Aerial Ride Share App which operates as a wholly owned subsidiary of eVERTIPORTS International Corporation.
- Customers can book rides anywhere in the world where air taxis fly and when they share it with their friends, they earn UP UP *n* AWAY! SKY MILE points to use on future flights.
- By downloading the free app the customer will receive a unique QR Code they can share with their friends and influences.
- When they share the app, the process repeats itself and the network broadens with whomever they shared the app with.
- There is no global platform to order air taxi service compared with existing platforms: Expedia, Priceline, etc.
- There is a short window open for the near term to offer such a service. Joby, Archer, Wisk, Supernal plan their own apps
- It is likely not offered as there is no air taxi service yet operating.
- Introducing a membership app now serves numerous purposes to eVERTIPORTS detailed on next slide.

(UP UP n AWAY! Could likely be known as- shortened to UP n Away or just UP as could FREE RIDE!)

Up Up n AWAY! Come On TAKE a FREE RIDE!

Serves numerous purposes to eVertiports:

1. Builds Customer Base

Allows company to build customer base and brand influencers ahead of mass adoption of Aerial Ride Sharing.

2. First Mover:

Allows for first mover advantage to build global, asset-lite brand on back of future operators

3. Valuable Data

Indicates where they:
Live
Work
Want to take off from
Where they want to land.

4. Negotiation Leverage

to negotiate booking fee % with manufacturers and operators as they want access to land at company's vertiports.

5. Builds Revenue Stream

Years 1 through 4
at lower revenue stage
During permitting and building phase of vertiports

6. Compelling Information

To use with real estate owners to obtain site option.
Introduces credible information to local, state and federal during permitting process.

7. Supports Permitting

Allows company to send permitting support petition to its subscribers who can opt in -sign support letter to permit vertiport development

8. Sponsorship Advertising

Revenue opportunity from marketing characters and stories which deliver content for its followers.
